Full-stack engineer: I design, ship and **monitor in production** software that holds at scale, from an **event-driven platform with 1M+ users** (Kafka) to the **AI SaaS** I co-founded, adopted by **PayFit, Canva & Notion**. **Strict TypeScript**, type-safe end to end, and a real bar for **UX**: a product is only good if people want to use it.

## Professional Experience

- **FOREVR** · Founder & CEO · Montpellier, France · **July 2026 - Present**  
Digital memorial SaaS to remember the people we love · **500+ visitors/month**.
  - Carried end to end on my own: product, design, engineering, **business, SEO/SEA, growth and marketing**
  - Next/React/TS, MongoDB, Stripe · **494 Playwright e2e tests** · **monitored in production** (Sentry, Umami)
- **KAWAAK** · Tech Lead & Co-founder · Montpellier, France · **November 2024 - July 2026**  
AI-powered LinkedIn content SaaS, built from scratch with: ML engineer and Growth Marketer.
  - **23K+ users** · **€200K+ ARR** · **adopted by PayFit, Canva, Notion** · **4.8/5 (150+ reviews)**
  - **Modular and scalable** full-stack architecture: NX monorepo, React / Vite (strict TS), [express-zod-api](#) backend, MongoDB + Redis + BullMQ, AWS, multi-LLM orchestration, Stripe + PayPal, Sentry / PostHog / Mixpanel
  - **Full ownership of the project, from the idea to production**, in an **agile team (weekly)** with the CEO
- **WAALAXY** · Software Engineer, Full-stack · Montpellier, France · **May 2022 - November 2024**  
LinkedIn prospecting platform, **1M+ users**, team of 16 engineers, 2 EMs, 3 PMs, 2 designers, 2 QAs.
  - **Automated data pipeline from production (MongoDB) to a Snowflake warehouse**, enriching and categorising **500M+ prospects and 1B+ actions**, used daily by the product and growth teams
  - Designed **Prospect Finder**, keyword and filter vector search (Pinecone) across those **500M+ profiles**, with PM, designer and growth: **+80% conversion** at onboarding (A/B testing)
  - Shipped an **email prospecting service (×10 volume)** and a **native HubSpot integration**, designed with the **Engineering Manager**, on a **service foundation** (DAO, controllers, routes, middlewares) I co-defined
  - **Reviewed the team's pull requests, mentoring** (pair programming, onboarding) and **tech meetups** shared with the tech teams; weeks dedicated to support bugs, in pairs, handed over at the end of the week
- **KEYPOP** · Founder & CEO · Montpellier, France · **2023 - 2024**  
Electron desktop app (macOS / Windows / Linux) + Chrome extension binding AI prompts to keyboard shortcuts.
- **CODÉIN** · Front-end React Developer · Montpellier, France · **June 2021 - August 2021**  
Built **90% of the new HR web interface** of [OPPBTP](#) in React TypeScript.
