

Julien Wiegandt

Senior Software Engineer · Founding Engineer · TypeScript / React / Node.js · 5+ years xp

Montpellier, France | wiegandtjulien2@gmail.com | +33634087380 | [LinkedIn](#) | [Book a meeting](#) | [GitHub](#) | [Full résumé](#)

Full-stack engineer: I design, ship and **monitor in production** software that holds at scale, from an **event-driven platform with 1M+ users** (Kafka) to the **AI SaaS** I co-founded, adopted by **PayFit, Canva & Notion**. **Strict TypeScript**, type-safe end to end, **agentic development workflows** and a real bar for **UX**: a tool is only good if the people using it work better.

Professional Experience

- FOREVR** · Founder & CEO · Montpellier, France · **July 2026 - Present**
Digital memorial SaaS, **carried end to end on my own**: product, architecture, delivery, QA and support.
 - Next.js (**App Router**) / React / TypeScript, MongoDB, Stripe · **494 Playwright e2e tests** · **monitored in production** (Sentry, Umami)
 - Agentic development harness** across the whole cycle (investigation → review): repository instructions, **MCP servers**, scheduled tasks
- KAWAAK** · Tech Lead & Co-founder · Montpellier, France · **November 2024 - July 2026**
AI-powered LinkedIn content SaaS, built from scratch with: ML engineer and Growth Marketer.
 - 23K+ users** · **€200K+ ARR** · **adopted by PayFit, Canva, Notion** · **4.8/5 (150+ reviews)**
 - Flexible and scalable** full-stack architecture: NX monorepo, React / Vite (strict TS), [express-zod-api](#) backend, MongoDB + Redis + BullMQ, AWS, multi-LLM orchestration
 - Full ownership of the project, from the idea to production**, in an **agile team** (weekly with the CEO)
- WAALAXY** · Software Engineer, Full-stack · Montpellier, France · **May 2022 - November 2024**
LinkedIn prospecting platform, **1M+ users**, team of 16 engineers, 2 EMs, 3 PMs, 2 designers, 2 QAs.
 - Automated data pipeline from production (MongoDB) to a Snowflake warehouse**, enriching and categorising **500M+ prospects and 1B+ actions**, used daily by the product and growth teams
 - Designed **Prospect Finder**, keyword and filter vector search (Pinecone) across those **500M+ profiles**, with PM, designer and growth: **+80% conversion** at onboarding (A/B testing)
 - Email prospecting service (×10 volume)** and **HubSpot integration**, on a **service foundation** I laid down
- KEYPOP** · Founder & CEO · Montpellier, France · **2023 - 2024**
Electron desktop app (macOS / Windows / Linux) + Chrome extension binding AI prompts to keyboard shortcuts.
- CODÉIN** · Front-end React Developer · Montpellier, France · **June 2021 - August 2021**
Built **90% of the new HR web interface** of [OPPBTP](#) in React TypeScript.

Technical Skills

Front-end	TS TypeScript	React	Next.js App Router	React Query	Tailwind CSS
Back-end	Node.js	Express	Zod	API REST	Stripe
Data	PostgreSQL	SQL	MongoDB	Redis	Kafka Snowflake BullMQ
Infra & DevOps	AWS	Docker & Compose	CI/CD	Terraform	Sentry
Tests & Quality	Playwright	Code Review	Continuous Delivery	Monorepo NX	Agile
AI & Agents	AI Coding agents	MCP servers	Multi-LLM orchestration		

Education

- M.Sc. Software Engineering** · University of Sherbrooke (Québec, Canada) (*double degree*) · 2021-2022
- Engineering Degree, CS & Management** · Polytech Montpellier, France (*double degree*) · 2019-2022
- B.Tech. Computer Science** · IUT de Blagnac, France · 2017-2019

Languages
