

Julien Wiegandt

Senior Software Engineer · Founding Engineer · TypeScript / React / Node.js · 5+ years xp

Montpellier, France | wiegandtjulien2@gmail.com | +33634087380 | [LinkedIn](#) | [Book a meeting](#) | [GitHub](#) | [Full résumé](#)

Full-stack engineer: I design, ship and **monitor in production** software that holds at scale, from an **event-driven platform with 1M+ users** (Kafka) to the **AI SaaS** I co-founded, adopted by **PayFit, Canva & Notion**. **React/TypeScript front and Node APIs, strict TypeScript**, a real bar for **UX**, and **AI routines** that speed up my whole development cycle.

Professional Experience

- FOREVR** · Founder & CEO · Montpellier, France · **July 2026 - Present**
Digital memorial SaaS, **carried end to end on my own**: product, design, engineering, business, SEO/SEA and growth.
 - Next.js / React / TypeScript, MongoDB, Stripe · **494 Playwright e2e tests · monitored in production** (Sentry, Umami)
 - AI routines** across the whole dev cycle and an **autonomous agentic pipeline**: SEO strategy over **MCP, 10 articles/week**, **Sentry** issues resolved automatically
- KAWAAK** · Tech Lead & Co-founder · Montpellier, France · **November 2024 - July 2026**
AI-powered LinkedIn content SaaS, built from scratch with: ML engineer and Growth Marketer.
 - 23K+ users · €200K+ ARR · adopted by PayFit, Canva, Notion · 4.8/5 (150+ reviews)**
 - Modular and scalable** full-stack architecture: NX monorepo, React / Vite (strict TS), [express-zod-api](#) backend, MongoDB + Redis + BullMQ, AWS, multi-LLM orchestration, Sentry / PostHog / Mixpanel
 - Full ownership of the project, from the idea to production**, in an **agile team (weekly** with the CEO)
- WAALAXY** · Software Engineer, Full-stack · Montpellier, France · **May 2022 - November 2024**
LinkedIn prospecting platform, **1M+ users**, team of 16 engineers, 2 EMs, 3 PMs, 2 designers, 2 QAs.
 - Automated data pipeline from production (MongoDB) to a Snowflake warehouse**, enriching and categorising **500M+ prospects and 1B+ actions**, used daily by the product and growth teams
 - Designed **Prospect Finder**, keyword and filter vector search (Pinecone) across those **500M+ profiles**, with PM, designer and growth: **+80% conversion** at onboarding (A/B testing)
 - Shipped an **email prospecting service (×10 volume)** and a **native HubSpot integration**, designed with the **Engineering Manager**, on a **service foundation** (DAO, controllers, routes, middlewares) I co-defined
 - Reviewed the team's pull requests, mentoring** (pair programming, onboarding) and **tech meetups** shared with the tech teams; weeks dedicated to support bugs, in pairs, handed over at the end of the week
- KEYPOP** · Founder & CEO · Montpellier, France · **2023 - 2024**
Electron desktop app (macOS / Windows / Linux) + Chrome extension binding AI prompts to keyboard shortcuts.
- CODÉIN** · Front-end React Developer · Montpellier, France · **June 2021 - August 2021**
Built **90% of the new HR web interface** of [OPPBTP](#) in React TypeScript.

Technical Skills

Front-end	TS TypeScript	React	Next.js	React Query	Tailwind CSS	Framer Motion
Back-end	Node.js	Express	Zod	API REST	Stripe	
Data	SQL	PostgreSQL	MongoDB	Redis	Kafka	Snowflake Pinecone BullMQ
Infra, CI & Quality	AWS	Google Cloud	Docker	Continuous Delivery	Playwright	Code Review Sentry
AI & Agents	AI AI agents	MCP servers	Multi-LLM orchestration			

Education

- M.Sc. Software Engineering** · University of Sherbrooke (Québec, Canada) (*double degree*) · 2021-2022
- Engineering Degree, CS & Management** · Polytech Montpellier, France (*double degree*) · 2019-2022
- B.Tech. Computer Science** · IUT de Blagnac, France · 2017-2019

Languages
